

25X1

**INFORMATION AND MANAGEMENT SUPPORT STAFF
WEEKLY REPORT FOR PERIOD ENDING 22 AUGUST 1984**

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

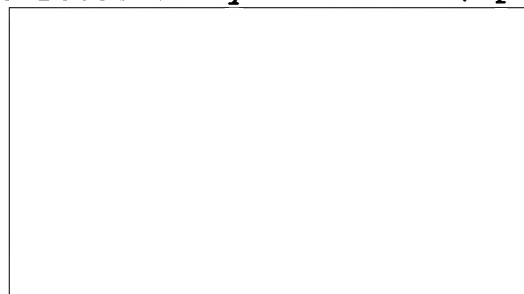

2. Items or Events of Major Interest that have Occurred
During the Preceding Week:

a. LIMS

On 16 August the LIMS Project Manager and DC/IMSS met with [redacted] and members of her staff to discuss communication support for LIMS. [redacted] is responsible for OC's advanced planning for new requirements such as LIMS. When advised that LIMS would be brought up using Delta Data Terminals which, for the most part, are already in place or on order, [redacted] felt this presented no problems for OC. She indicated she would check with [redacted] OC/DND regarding upgrades to [redacted] as well as the status of communication links to [redacted] When advised of OL's plans to make LIMS available to overseas activities, [redacted] indicated there were some formidable security problems associated with such "direct" access. Project Mercury will provide the necessary communications capability, however, the secure linking of a field activity to a headquarters computer center is a complex problem which ORD and OS are trying to resolve. [redacted]

b. DAS

(1) We are in receipt of an Investigation Report on the subject of enhancing ASAPS, in response to our 930 request for this service, dated 1 May. Prepared by SEB/LSD/ODP, it provides options that are of interest--but also surfaces a number of questions that must be resolved by discussion, prior to setting a course of action.

25X1

C O N F I D E N T I A L

25X1 (2) C/TG/DAS, in consultation with [] established
25X1 requirements for the latter's personal computer (non-tempered
25X1 version). It was recommended that [] (or designee) walk
through the 88, based upon the unexpected long lead time
experienced with other PC orders in acquiring the necessary
approvals. []

c. Regulations

LI 70-1-3, Correspondence - Signed and distributed.

Employee Bulletin #1142, Employment Opportunities Created
by Transfer of O&P of Hq. Bldg. to Agency Control - Published.

Employee Bulletin, Repair to Windows in 4E Corridor -
Submitted to OIS/RCD and subsequently published.

25X1 [] Separation Requirements for Information
Processing Systems - Concurred provided a small adjustment is
made.
